

Rare Coin List

Price \$1.00

Fall/Winter 1976

ORDERING POLICIES

- All orders over \$20 will be sent postpaid and insured. Orders under \$20 are welcome, but must include 50¢ for postage and handling costs.
- Illinois residents must include the 5% State Sales Tax in their orders.
- All material carries a full 5-day return privilege. Your purchase price will be promptly refunded upon our receipt of any unsatisfactory merchandise — you, the customer, **MUST** be totally satisfied with any material we offer. This holds true for material returned for whatever reason.
- All material sold by RARCOA is unconditionally guaranteed to be genuine and as represented. You can order with confidence from a firm with established credentials. This is especially important in today's rising market where proper value is of the utmost importance.
- Although we do our best to maintain as complete a stock as possible, it may happen that an item you request has been sold prior to our receipt of your order. We realize how disappointing it can be to have your check returned, so we ask that second choices be listed where a substitution is possible — especially if you are ordering a "type" coin. We promise not to abuse this privilege, and will send second choices only when absolutely necessary.
- You may call collect to reserve any items that total \$100 or more.
- Any order of \$10 or more can be charged to your BankAmericard or MasterCharge cards. Please include your name, exactly as it appears on the card, and list all the raised information on the card (include the four-digit bank number on MasterCharge cards).
- Personal checks are acceptable, but 10 days clearance must be allowed for persons with whom we have not done business or do not submit sufficient references. Cashier's or Certified Checks or Money Orders are preferable, and the material will be shipped in most cases, the same day when payment arrives in this form.
- All photographs in this listing are of the actual items being offered.

Rare Coin List

Fall/Winter 1976

We are pleased to present to you our latest edition of the RARCOA Rare Coin List. In it you will find a varied selection of material that includes U.S. and World Coins, U.S. Large and Small Size Currency and Encased Postage, and a brief introduction to our newest department — RARCOA-Lion Crest Stamps.

There are numerous new items which are being listed here for the first time, so please be sure to inspect the catalogue closely for that "special coin" that might interest you. Our inventory is constantly changing, so remember that you may call collect to reserve items that total \$100 or more. You also have the added convenience of being able to use your BankAmericard or Master Charge to make your purchases.

You will notice that the grading of coins in this catalogue is shown in two forms. The first, the **qualitative grading system**, is most familiar to numismatists since it has been in use for the longest period of time. It employs, very simply, an adjective such as Good, Very Good, Fine, etc. to describe the amount of wear or circulation a coin has seen.

However, with coin prices rising as they have over the past several years, it became necessary to be even more specific about a coin's grade so that the buyer would receive full value for his dollar spent on numismatic items. The price variance between grades was becoming substantial, so something had to be done to describe a coin that was better than a certain grade's standards, yet not quite up to the standards of the next highest grade.

At first, the use of "split grading" (VG-F, VF+, etc.) seemed to be the answer. More recently, however, the use of the **quantitative grading system** has become more widespread. It was first compiled in the 1950's by Dr. William Sheldon to more accurately describe the grade, color, etc. of early U.S. Large Cents. His numbering system from 1 (identifiable) to 70 (mint state) allowed for a wider range within grades, and is today being used to so describe all series of coins. The numbers and their adjectival equivalents are:

(1)	Poor	(20, 25, 30, 35)	Very Fine
(2)	Fair	(40, 45)	Extremely Fine
(3)	About Good	(50, 55)	About Uncirculated
(4, 6)	Good	(60, 65, 70)	Uncirculated (Mint State)
(8, 10)	Very Good	(60, 65, 70)	Proof
(12, 15)	Fine		

For example, a coin with a grade of EF-45 would be comparable to what had previously been called EF-AU; a strictly Uncirculated coin would be given a 60 classification, while a Gem would be a 65 or 65+ coin, and so on. The grade of MS-70 is virtually never used by knowledgeable numismatists. It denotes a perfect coin, something which in our opinion occurs only very rarely.

As this system receives wider and wider recognition by the collecting fraternity, its acceptance seems assured. And with the continued backing by collectors, dealers and large numismatic organizations (such as the American Numismatic Association and Professional Numismatists Guild), a unified grading system is becoming a reality.

U.S. COLONIAL COINS

- 1662 Oak Tree Twopence. N-33. VF(25), slightly weak struck \$25.00

SECOND CHOICES

Although we do our best to maintain as complete a stock as is possible, it may happen that an item you request has been sold prior to our receipt of your order. We realize how disappointing it can be to have your check returned, so we ask that second choices be listed where a substitution is possible — especially if you are ordering a type coin. We promise not to abuse this privilege, and will send second choices only when absolutely necessary.

RARCOA pays the postage on all orders over \$20.00; if your order is under \$20.00, please include 50¢ for postage.

SECOND CHOICES

Although we do our best to maintain as complete a stock as is possible, it may happen that an item you request has been sold prior to our receipt of your order. We realize how disappointing it can be to have your check returned, so we ask that second choices be listed where a substitution is possible — especially if you are ordering a type coin. We promise not to abuse this privilege, and will send second choices only when absolutely necessary.

RARCOA pays the postage on all orders over \$20.00; if your order is under \$20.00, please include 50¢ for postage.

NOTES

1. The first part of the notes is a general introduction to the subject.

2. The second part of the notes is a detailed description of the method used.

The method used in this study is a combination of the two methods described in the literature. It is a modification of the method used by Smith and Jones (1965) and is based on the work of Brown and Green (1970). The method is described in detail in the following sections.

3. The third part of the notes is a discussion of the results.

4. The fourth part of the notes is a conclusion and a list of references.

The results of the study are presented in the following sections. The first section is a summary of the results, followed by a detailed discussion of the results.

The results of the study are presented in the following sections. The first section is a summary of the results, followed by a detailed discussion of the results.

5. The fifth part of the notes is a detailed description of the results.

The results of the study are presented in the following sections. The first section is a summary of the results, followed by a detailed discussion of the results.

6. The sixth part of the notes is a discussion of the results.

The results of the study are presented in the following sections. The first section is a summary of the results, followed by a detailed discussion of the results.

7. The seventh part of the notes is a discussion of the results.

The results of the study are presented in the following sections. The first section is a summary of the results, followed by a detailed discussion of the results.

8. The eighth part of the notes is a conclusion and a list of references.

The results of the study are presented in the following sections. The first section is a summary of the results, followed by a detailed discussion of the results.

9. The ninth part of the notes is a discussion of the results.

The results of the study are presented in the following sections. The first section is a summary of the results, followed by a detailed discussion of the results.

10. The tenth part of the notes is a conclusion and a list of references.

The results of the study are presented in the following sections. The first section is a summary of the results, followed by a detailed discussion of the results.
